

Trivantis®

eLearning with a **Vision**

Trivantis clients include:

- 60% of Fortune 100 companies
- Multiple industries in 60+ countries
- Four out of the five military branches

“Lectora has dramatically raised the quality of our elearning content and the speed with which we create this content.”
- Bill Martin, Procter & Gamble

“Trivantis’ CourseMill LMS was a perfect selection for us. We’re able to track and monitor our learners’ performances without adding additional IT support or equipment.”
- Julie Metelski, Best Western

“Trivantis’ CDS team created a training course comprising of audio, video, knowledge checks and more, to engage and inform our employees. It was a pleasure working with their professional and attentive team. The result was just what we were looking for and we would use Trivantis again.”
- Helen Delia, Cadbury Schweppes

Passionate People. Powerful Products. Real Results.

Trivantis provides powerful elearning solutions for worldwide corporations, government agencies, and academic institutions. Whether you’re developing your first elearning course, enhancing existing courses to make them more engaging and interactive, or exploring innovative ways to communicate, Trivantis has solutions to create, deploy, and track elearning.

Lectora®

Lectora authoring software is used by more than 60% of Fortune 100 companies worldwide for fast and simple creation of interactive, multimedia content for elearning courses, websites, presentations, and more. Lectora accommodates users of all levels and expertise, which is why it is used by more than 1,500 organizations in multiple industries. Lectora includes an array of easy-to-use features, such as:

- Intuitive interface
- Single-click publishing to multiple platforms
- Extensive media file support
- Simple drag-and-drop technology
- AICC and SCORM compliant
- LMS compatible
- Fast conversion of Microsoft PowerPoint® files with Lectora Integrator

CourseMill®

CourseMill Learning Management System delivers exceptional value at an affordable price. You can choose to have CourseMill hosted on your server or let Trivantis host the content for you – either way, you’ll be provided with a scalable and customizable LMS solution that makes the delivery of elearning content fast and easy.

Custom Development Services

Trivantis Custom Development Services’ (CDS) portfolio includes hundreds of projects that extend from a single graphical user interface to a vast library of elearning titles for commercial use. With a time-proven methodology and creative team, CDS has developed a loyal following of clients who require professional grade custom content that delivers results.
